Author Index Volume 115 (2003)*

Amemiya, Y., *see* W.F. Christensen	(2)	543–564
Anido, C., C. Rivero and T. Valdés, Recursive estimation in linear models with general errors and grouped data: a median-based procedure and related asymptotics	(1)	85–102
Babu, G.J. and C.R. Rao, Confidence limits to the distance of the true distribution from a misspecified family by bootstrap	(2)	471–478
Barnhart, H.X., *see* W. Dana Flanders	(1)	145–170
Barry, D., The inclusion of partially reported studies in a Bayesian meta-analysis	(2)	365–378
Bednarski, T. and M. Nowak, Robustness and efficiency of Sasieni-type estimators in the Cox model	(1)	261–272
Belzunce, F., J.-M. Ruiz and M.-C. Ruiz, Multivariate properties of random vectors of order statistics	(2)	413–424
Braekers, R. and N. Veraverbeke, Testing for the partial Koziol–Green model with covariates	(1)	181–192
Castelluccio, P., *see* X.-H. Zhou	(1)	193–213
Castelo, R. and A. Siebes, A characterization of moral transitive acyclic directed graph Markov models as labeled trees	(1)	235–259
Chaloner, K., *see* C. Han	(2)	585–601
Chen, Z. and L. Shen, Two-layer ranked set sampling with concomitant variables	(1)	45– 57
Cheng, Y., An application of Edgeworth expansion in Bayesian inferences: optimal sample sizes in clinical trials	(2)	379–396
Christensen, W.F. and Y. Amemiya, Modeling and prediction for multivariate spatial factor analysis	(2)	543–564
Dana Flanders, W., H.X. Barnhart and A.S. Kosinski, An estimated score method for missing and auxiliary covariates in two stage studies	(1)	145–170
Das, K., N.K. Mandal and B.K. Sinha, Optimal experimental designs for models with covariates	(1)	273–285
Dey, A., *see* C.-y. Suen	(2)	623–635
Ding, K., A lower confidence bound for the change point after a sequential CUSUM test	(1)	311–326
Durio, A. and Ya.Yu. Nikitin, Local Bahadur efficiency of some goodness-of-fit tests under skew alternatives	(1)	171–179
Field, C. and J. Zhou, Confidence intervals based on robust regression	(2)	425–439
Fujikoshi, Y., *see* H. Yanagihara	(2)	349–360
Geng, Z., *see* J. Guo	(1)	59– 67
Ghosh, M., *see* C.-P. Wang	(2)	441–459
Guo, J., Z. Geng and N.-Z. Shi, Consecutive collapsibility of logistic regression coefficients over an ordinal background	(1)	59– 67
Han, C. and K. Chaloner, D- and c-optimal designs for exponential regression models used in viral dynamics and other applications	(2)	585–601
Härdle, W., *see* L. Yang	(2)	521–542
Hlávka, Z., Asymptotic properties of robust three-stage procedure based on bootstrap for M-estimator	(2)	637–656

*The issue number is given in front of page number.
